Fall 2024
CS319-1
Deliverable 2

Non-functional Requirements:

Performance:

- a) The maximum server response time is 3 seconds for each query or page load, and the response time is 1 seconds for any action response on an Internet connection with average speed of around 25mbps.

Availability:

- a) The system must be available 99.9% of the time, excluding scheduled maintenance periods, to ensure reliability for users, including students, counselors, and internal staff. This level of availability can be monitored through server uptime tracking and logging tools.
- b) The application must support session continuity, allowing users to automatically resume their previous session if they reconnect within 10 seconds of a network disruption or application crash.

Data Security:

- a) Access to personal data should be role-based, and only authorized personnel, for example, the communication office director and coordinator, can view sensitive information.
- b) Encryption of all sensitive data such as contact information and payroll details.

Usability:

- a) For ease of use the process of appointment application must be achievable within 12 clicks once on the appointment page.
- b) The application must be fully responsive, ensuring all pages and interactive elements render correctly on screens of varying sizes, for example 2560x1600 or 1920x1080 or 1280x768, this would include mobile devices, tablets, and desktops.

Error Handling:

- a) The application must display clear, actionable error messages for any system error encountered, with a user-friendly explanation and a unique error code for each error type.

Activity Diagrams:

Guide Interactions

The screenshot shows the Guide Dashboard. At the top, a welcome message says "Welcome Back, John". On the left sidebar, there are links for Dashboard, Applications, Fair Applications, Tour Applications, and Responsible Advisors. Below the sidebar, there are "Contact Us" and "Log out" links. The main content area displays a "Daily Schedule" for Erkin Öz, showing a list of time intervals and their corresponding activities. A "Monthly Schedule" for October 25, 2024, is also shown, with the 25th highlighted. The background of the dashboard features a scenic view of a campus with fallen leaves.
